Rider RTS – Regional Transmission Service Clause

The Regional Transmission Service (RTS) Clause provides a mechanism to recover transmission expenditures of Federal Energy Regulatory Commission (FERC) approved Open Access Transmission Tariff of the Midwest Independent Transmission System Operator, Inc. (MISO) through retail rates as approved by the Iowa Utilities Board (Board) through the application of cost recovery factors.

Applicable:
To all rate classes. The RTS will be applied to all kW or kWh sales, depending upon rate class, under retail electric rate schedules. The cost recovery factors are applied on a monthly basis to either base kilo-Watt-hours (energy) or base kilo-Watt (demand) units, depending upon customer class, for the purpose of billing. The RTS factor shall be applied as a separate charge. The cost recovery factors shall be determined annually per the formula below and shall apply monthly to bills. All provisions of the customer's current applicable rate schedule will apply in addition to this charge.

Cost recovery factors to be applied to all uses for all bills rendered on and after January 1, 2013: C

Class	Price Codes	RTS $/kWh	RTS $/kW	
Residential Service Usage	040, 047-8, 050, 057-8, 060, 067-8, 100, 107-8, 150, 157-8, 400, 407-8, 450, 457-8, 460, 467-8, 470, 477-8, 550, 557-8, 560, 567-8, 570, 577-8	$0.02068	n/a	I
General Service Usage	200, 207-8, 240, 247-8, 250, 257-8, 500, 507-8, 520, 527-8, 600, 607-8, 650, 657-8, 810, 817-8, 820, 827-8	$0.02081	n/a	I
Large General Service Usage*/ Bulk Usage	300, 307-8, 320, 327-8, 440, 447-8, 480, 487-8, 490, 497-8, 510, 760, 807-8	n/a	$5.90	I
Lighting Usage	080, 090, 190, 210, 270, 280, 620, 630, 640	$0.02125	n/a	I
Standby	790, 840	n/a	$6.27	I

* Large General Service RTS charges shall be included with base rate demand charges in the application of primary service and power factor provisions of the Large General Service tariff.
