Re: FCC Compliance Filing – Intrastate Access Tariff – Iowa Telecommunications Association (ITA) Access Service Tariff No. 1. Docket No. TF - 2015-0083

Dear Executive Secretary Conrad:

As we have notified the Board previously, the Iowa Communications Alliance d/b/a Iowa Telecommunications Association has assumed responsibility for maintaining the Iowa Telecommunications Association Access Service Tariff No. 1 (the "ITA Tariff").

In response to the Board's May 8, 2015 *Order Regarding Intrastate Access Tariff Filings*, the Alliance submits this letter to confirm that the ITA Tariff is compliant with the requirements of the Federal Communications Commission's November 2011 order concerning universal service and intercarrier compensation reform.[1]

The ITA Tariff has previously been amended to eliminate the terminating carrier common line charge, and all intrastate terminating local switching rates contained in the ITA Tariff mirror the interstate terminating local switching rates set forth in National Exchange Carrier Association ("NECA") Tariff No. 5 (the "NECA Tariff").

As required by the FCC's transitional access service pricing rules, NECA will be filing revisions to the NECA Tariff in June 2015 with an effective date of July 1, 2015, reflecting the required two-thirds reduction of the difference between the formerly existing interstate terminating end office access rates and $0.005.

Effective July 1, 2015, the intrastate terminating end office access rates contained in the ITA Tariff will mirror the reduced interstate terminating end office rates contained in the revised NECA Tariff.
