UTILITIES BOARD

IN RE: I-WIRELESS, LLC	DOCKET NO. ETA-2013-0003
-------------------------------	--------------------------

ORDER DESIGNATING ELIGIBLE CARRIER

(Issued October 18, 2013)

On August 15, 2013, i-wireless, LLC (i-wireless), filed with the Utilities Board (Board) an application for limited designation as a universal service eligible telecommunications carrier (ETC) in all or part of certain Iowa exchanges pursuant to 47 U.S.C. § 214(e)(2), 47 C.F.R. Part 54.101, and 199 IAC 39.2. i-wireless asks that the Board designate it as an ETC for the limited purpose of offering Lifeline services pursuant to 199 IAC 39.2 in the exchanges identified in the attachment to this order. No objections to this application have been filed.

In its *Lifeline Reform Order* released on February 6, 2012, the Federal Communications Commission (FCC) modified its rules with respect to ETC designations for carriers that only seek such designations for Lifeline offerings.¹ The *Lifeline Reform Order* provides that a carrier applying for ETC designation that is limited to Lifeline service must submit a compliance plan to the FCC for approval if that carrier is not using its own facilities to provide voice service.² Exhibit 4 to the application is i-wireless's Compliance Plan as filed with the FCC and a copy of the

¹ *In the Matter of Lifeline and LinkUp Reform and Modernization*, "Report and Order and Further Notice of Proposed Rulemaking," WC Docket No. 11-42, FCC 12-11 (released Feb. 6, 2012) ("*Lifeline Reform Order*").

² *Lifeline Reform Order*, ¶¶ 379-80.

FCC's September 9, 2011, public notice announcing approval of i-wireless's Compliance Plan.

i-wireless states that it adopts the exchange area maps on file with the Board for the exchange areas listed in Exhibit 7 of its application. i-wireless also affirmed that it would be responsible for the monthly Dual Party Relay Service assessment.

Board rule 39.2 provides a means by which the Board can designate Iowa telecommunications companies to be eligible to receive funding from the universal service fund (USF), as defined by the Telecommunications Act of 1996, 47 U.S.C. § 254 (the Act). Under the Act (and the FCC regulations implementing the Act), the Board must determine that a carrier meets certain service requirements before it may be designated an eligible carrier. Pursuant to 199 IAC 39.2(3), the carrier must do the following:

- 1) Offer the services supported by the federal universal service fund as identified in 199 IAC 39.2(1)"a" through "i";
- 2) Offer the required services using its own facilities or a combination of its own facilities and resale as described in 199 IAC 39.2(3)"a";
- 3) Advertise the availability of the supported services as described in 199 IAC 39.2(3)"b";
- 4) Submit an explanation of how the supported services will be provided pursuant to 199 IAC 39.2(3)"c";
- 5) Submit a description of the area for which ETC designation is sought as described in 199 IAC 39.2(3)"d";

- 6) Submit a network improvement and maintenance plan associated with the provision of supported services as described in 199 IAC 39.2(3)"e";³
- 7) Demonstrate compliance with applicable consumer protection standards as described in 199 IAC 39.2(3)"f";
- 8) Demonstrate compliance with applicable service quality standards as described in 199 IAC 39.2(3)"g";
- 9) Certify the ability to maintain a minimum of two hours of backup power to ensure functionality without an external power source pursuant to 199 IAC 39.2(3)"h";
- 10) Demonstrate a commitment to offer a local usage plan comparable to the one offered by the incumbent local exchange carrier in the areas for which ETC designation is sought as described in 199 IAC 39.2(3)"i";
- 11) File a statement that the carrier acknowledges the FCC may require it to provide equal access as described in 199 IAC 39.2(3)"j";
- 12) Demonstrate that granting ETC designation is in the public interest as described in 199 IAC 39.2(3)"k"; and
- 13) Commit to respond to Board requests for information as described in 199 IAC 39.2(3)"l."

³ The Board notes that the requirement of 199 IAC 39.2(3)"e" to submit a two-year network improvement and maintenance plan does not apply to i-wireless in this instance. That rule applies only to carriers seeking or receiving high-cost support, and i-wireless is seeking limited ETC designation for participation in the Lifeline program.

In its request for designation, i-wireless states that it satisfies or will satisfy each of the requirements set forth in 199 IAC 39.2(3). i-wireless has made the necessary certifications so as to substantially comply with 199 IAC 39.2, including demonstrating to the Board that it is financially and technically capable to provide service pursuant to 47 C.F.R. § 54.201(h). Based on i-wireless's unopposed representations, the Board finds that i-wireless offers the services supported by the federal universal service fund in the manner required by 199 IAC 39.2 and will comply with applicable service quality standards and consumer protection rules throughout its designated service area.

Board rule 39.2(5) provides that unless otherwise ordered by the Board, the approved service area for USF support calculations will be the same as the service area currently approved for local service by the Board. i-wireless submitted a general coverage area map for its underlying carrier as well as a list of the exchanges that defines its proposed service area, which is attached to this order. i-wireless requests statewide designation as represented by the exchange boundary maps of the incumbent local exchange carriers that are on file with the Board. A list of those exchanges are listed on the attachment to this order. The Board finds that this information filed by i-wireless satisfies 199 IAC 39.2(5)"c."

In addition, Iowa Code § 477C.7 requires wireless carriers to contribute to the Dual Party Relay Service (DPRS) through an assessment of 3 cents per month on each telephone number. Lifeline services are not exempt from the DPRS assessment. i-wireless states that it will be responsible for the DPRS assessment by contributing 3 cents per month on each active Iowa telephone number.

IT IS THEREFORE ORDERED:

1. Limited eligible telecommunications carrier status is granted to i-wireless, LLC, as requested in its application filed on August 15, 2013, subject to the commitments described in the body of this order, in the exchanges listed in the attachment to this order.
2. The designated service area shall be the area in Iowa identified by the list of identified exchanges attached to this order.
3. The Executive Secretary of the Utilities Board shall mail copies of this order to i-wireless, LLC, the Universal Service Administration Company, the Federal Communications Commission Universal Service Branch, and the Federal Communications Commission Office of the Secretary.

UTILITIES BOARD
