Ms. Joan Conrad, Executive Secretary  
Iowa Utilities Board  
1375 East Court Avenue, Room 69  
Des Moines, IA 50319-0069

Dear Ms. Conrad:

Provided herewith, for filing with the Iowa Utilities Board (Board), is MidAmerican Energy Company's (MidAmerican) revised and substituted Page 1 of its February 14, 2012, update concerning the Wind VII Iowa Project. This revised and substituted Page 1 now includes, on a non-confidential basis, the following information for the first 593.4 MW of the Project: (i) the projected total cost; (ii) the dollar/kW cost rate; (iii) the dollar/kW cost cap; and (iv) the estimated percentage of overall costs represented by remaining project costs. While these elements were initially filed confidentially, the need to continue such protection has ended due to the fact that all key contracts for completion of the full 1,000.5 MW have been executed as of mid-March 2012. Other elements of the February 14, 2012 filing, submitted confidentially, are not impacted by the revised and substituted Page 1.

Please direct any questions regarding this update to the undersigned.

Respectfully submitted,

/s/ Charles R. Montgomery
