IOWA UTILITIES BOARD

STATE OF IOWA

BEFORE THE IOWA UTILITIES BOARD

IN RE:	
INTERSTATE POWER AND LIGHT COMPANY	DOCKET NO. EPB-2014-0150

APPLICATION FOR CONFIDENTIAL TREATMENT

COMES NOW, Interstate Power and Light Company (IPL), and for its request for confidential treatment pursuant Iowa Code § 22.7(3) and (6), states as follows:

1. IPL is submitting herein for filing with the Iowa Utilities Board, pursuant to Iowa Code § 476.6(22), an Revised Attachment A to its Periodic Report, originally submitted on March 31, 2015.

2. IPL is separately filing Revised Attachment A, which IPL deems to contain confidential materials in the form of a report to a government agency which, if released, would give advantage to competitors and serve no public purpose, pursuant to the requirements of Iowa Code § 22.7(3) and (6).

3. The materials subject to this request have been marked as "Confidential," in conspicuous and numerous locations upon the material.

The rationale for confidential treatment of this information can be distilled into the two following rationales:

- IPL's EPB contains information that could be used by IPL's competition to gather market-sensitive information relating to IPL's generation budget information relating to specific emissions control technologies and processes. Disclosure of such information could harm IPL's position in the competitive generation market to the detriment of its customers.
- IPL's EPB budget contains cost information relating to emissions control technologies and processes as well as specific information identifying specific IPL coal-fired generating plants affected by particular emission issues. Disclosure of such information could harm IPL's competitive position in procuring those technologies and processes, to the detriment of IPL's customers, furthering no public purpose.

5. Release of the information could result in the release of commercially sensitive, trade secret information, as well as higher costs to the remaining customers which furthers no public purpose, pursuant to the requirements of Iowa Code § 22.7(3) and (6).

6. The confidential treatment portion is required in order to preserve the confidential nature of that material to meet the exemption requirements Iowa Code § 22.7(3) and (6).

7. IPL is submitting an Affidavit in support of its Request for Confidentiality from a responsible corporate officer.

WHEREFORE, Interstate Power and Light Company respectfully requests that the Iowa Utilities Board (Board) grant its Request for Confidentiality, and that the Board hold confidential the portions of IPL's filing so marked.

Dated this 29th day of April, 2015.

Respectfully submitted,

Interstate Power and Light Company

IOWA UTILITIES BOARD

STATE OF IOWA

BEFORE THE IOWA UTILITIES BOARD

IN RE:

**INTERSTATE POWER AND LIGHT
COMPANY**

DOCKET NO. EPB-2014-0150

AFFIDAVIT IN SUPPORT OF REQUEST FOR CONFIDENTIALITY

I, Douglas R. Kopp, under oath depose and state that I am President of Interstate Power and Light Company (IPL), and as such, an Officer. In this capacity I am responsible for overseeing power plant operations.

In the foregoing employment capacity, I am personally knowledgeable of the adverse impact to the public which would result from the disclosure of Revised Attachment A of IPL's Emissions Plan and Budget (EPB), which includes budget information relating to specific emissions control technologies and processes.

IPL's EPB contains information that could be used by IPL's competition to gather market-sensitive information relating to IPL's generation budget information relating to specific emissions control technologies and processes. Disclosure of such information could harm IPL's position in the competitive generation market to the detriment of its customers.

IPL's EPB budget contains cost information relating to emissions control technologies and processes as well as specific information identifying specific IPL coal-fired generating plants affected by particular emission issues. Disclosure of such information could harm IPL's competitive position in procuring those
