CLAUSE PI – PHASE-IN ADJUSTMENT

**FILED WITH
Executive Secretary**

May 18, 2015

APPLICATION

IOWA UTILITIES BOARD

To all rates for electric service in Iowa, except Rate SL and Rate AL. Rates including a phase-in for those customer groups are shown on the specific tariff pages for those rates.

PHASE-IN ADJUSTMENT

Phase-In Adjustment factors are applied to the rates for electric service for the purpose of phasing in MidAmerican’s approved increase in revenue.

Phase-In Adjustment factors are billed on a dollar per kWh basis at the rates shown below. Rates are applicable for energy usage billed for periods shown and are applied based on former price schedules.

Customers establishing service after the effective date of this tariff shall have the base factor specifically identified for their rate and pricing zone as indicated in the List of Communities Served and applied to billed energy usage.

Phase-In Adjustment factors are billed on all kWh:

All prices are shown in dollars per kWh:
