**IOWA UTILITIES BOARD**  
**Policy Section**

Docket No.: TF-2015-0304  
Utility: MidAmerican Energy Company  
File Date/Due Date: July 14, 2015  
Memo Date: August 14, 2015

**TO:** The Board

**FROM:** Brooke Bassell-Herman

**SUBJECT:** Tariff Revision – New Rate Schedule

**I. Background**

On July 14, 2015 MidAmerican Energy Company filed revised tariff sheets to update Rate QF – Cogeneration and Small Power Production Facilities, MidAmerican’s tariff rate applicable to qualifying facilities with a design capacity of 100 kilowatts or less. The revised tariff sheets reflect MidAmerican’s current avoided costs for the 12-month period beginning August 2015 calculated using a market dispatch approach.

This filing supersedes a previous tariff filing made on August 15, 2014 and was identified as Docket No. TF-2014-0320. OCA, ELPC and IEC objected to the tariff, and it was docketed and suspended. MidAmerican said the new tariff filing was the result of discussions with the parties and the new filing used different avoided cost methodology. No objections have been made to the current tariff filing.

**II. Recommendation**

Notify MidAmerican Energy Company by a letter that Board staff has reviewed the proposed tariff revisions and believes the tariffs sheets are in substantial compliance with the Board rules and the revisions are accepted, subject to complaint or investigation.
