4. Identify each and every term of MidAmerican's rate mitigation plan filed in Docket No. RPU-2013-0004 that disqualifies Arti, or renders Arti ineligible, for rate mitigation.

Response:

MidAmerican's filed mitigation plan states on p. 2 of 4 that "MidAmerican will evaluate bill impacts resulting from its rate proposal for all customers of record on December 31, 2013 that have a full twelve-month standard billing history in 2013 and did not switch rates during the year". Arti does not meet these criteria and therefore does not qualify for rate mitigation.
