

IOWA UTILITIES BOARD
Energy Section

Docket No.: TF-2016-0015
Utility: Interstate Power and Light
Company
File Date: May 12, 2016
Effective Date: July 1, 2016
Memo Date: June 27, 2016

TO: The Board

FROM: Andrew McGrean

SUBJECT: Revised Annual Filing of Electric Energy Efficiency Cost Recovery Report

- I. Background/Analysis:** On May 12, 2016, Interstate Power and Light Company (IPL) filed its annual Electric Energy Efficiency Cost Recovery (EECR) Report, along with a new tariff to implement revised electric cost recovery factors to be effective July 1, 2016.

IPL had previously filed its annual EECR Report on February 29, 2016, with the Board approving IPL's electric EECR factors to be effective June 1, 2016. Due to modifications to IPL's energy efficiency plan approved by the Board on April 22, 2016, IPL is proposing revised electric EECR factors to reflect the changes.

The following chart contains IPL's proposed electric EECR factors:

Customer Class	Electric EECR Current \$/kWh	Electric EECR Proposed \$/kWh
Residential Service	0.0059	0.0062
Non-Residential General Service	0.0062	0.0062
Large General Service	0.0036	0.0036
Lighting	0.0060	0.0061
Large General Service— Bulk	0.0036	0.0036

The increase in the proposed EECR factors for Residential Service and Lighting is due to increases in planned budgets.

Staff has reviewed IPL's filing and finds that the filing appears to comply with the Board's energy efficiency cost recovery rules in 199 IAC 35.12.

No objections were filed.

- II. Recommendation:** Approve Interstate Power and Light Company's electric EECR factors by letter, effective July 1, 2016, subject to complaint or investigation.
