

IUB

1. "offer the same types of service" – no, some AOS may specialize in targeting a small part of the market
2. All rates must be FCC compliant. Rates should cover the cost of operation and then a set maximum profit margin. Compare rates with the private sector.
3. Yes, as long as the service has differing requirements and/or capabilities.
4. Yes, this would assist in maintaining consistency of service rates.
5. N/A
6. If there is a difference in the AOS service between a correctional and non-correctional facility, the security aspects, specific\custom equipment provided and methodology of how the service is provided might be considered proprietary and therefore confidential. The cost of the service should NOT be considered confidential.
7. N/A
8. N/A
