<b>IN RE:</b>	
<b>INTERSTATE POWER AND LIGHT COMPANY</b>	<b>DOCKET NO. EPB-2014-0150</b>

**UPDATE TO MARCH 31, 2015 PERIODIC REPORT**

Interstate Power and Light Company (IPL), by and through undersigned counsel, files this update to its March 31, 2015 Periodic Report. This update further supplements the additional information filed in response to the Iowa Utilities Board's (Board) Order Requiring Additional Information issued on December 3, 2014 (December 3<sup>rd</sup> Order). In the December 3<sup>rd</sup> Order, the Board directed IPL to respond to nine questions. On December 18, 2014, (subsequently corrected and refiled on December 19, 2014) IPL filed the additional information in response to the Board's nine questions contained in the December 3<sup>rd</sup> Order (December 19<sup>th</sup> Filing).

On February 6, 2015, IPL supplemented the December 19<sup>th</sup> Filing (February 6<sup>th</sup> Filing), supplementing its response to the sixth question in the December 3<sup>rd</sup> Order, which relates to the decision to fuel M.L. Kapp solely on natural gas. In that supplemental filing, IPL informed the Board that it submitted an Attachment Y Notice to Midcontinent Independent System Operator, Inc. (MISO) on January 30, 2015 (which was updated on February 3, 2015), for the suspension of a portion of the capacity of M.L. Kapp – namely, the projected reduction associated with fueling M.L. Kapp solely on natural gas.

Consistent with IPL's plans in its initial 2014 EPB filing, on June 1, 2015, IPL will commence fueling its M.L. Kapp generating station solely on natural gas as the method for complying with utility Mercury and Air Toxics Standards (MATS).<sup>12</sup>

**WHEREFORE**, IPL requests that the Board note and accept for filing IPL's Update to its March 31, 2015 Periodic Report..

Dated this 29<sup>th</sup> day of May, 2015.

Respectfully Submitted,

INTERSTATE POWER AND LIGHT  
COMPANY
